

17 February 05

In 2000 and 2001 Vikki Mount provided a wonderful family portrait fundraising opportunity at Rowen Street Kindergarten. Vikki's approach to the Committee was most professional and when, as Vice President, I first took on the job of coordinator for the photo arrangements I was delighted to find most of my work done for me. Vikki provided me with a detailed display book which included letter and reminder proformas, time-line and sample photos. Vikki phoned at regular intervals leading up to the big day to offer support and check for any questions.

When Vikki contacted me again in 2001, I had no hesitation in coordinating this activity once more. I have been delighted with the photos of my own children and extended family – it's no mean feat to get 6 adults and 5 children all looking gorgeous in the same photo!

For Rowen Street Kindergarten the results of this fundraising venture were

1. a number of satisfied customers - families very happy with quality photos capturing an important time in their life
2. some spare money to add to our library and equipment collection.
